

ABOUT THE CONFERENCE:

Patient safety is a framework of organized activities that creates culture, processes, procedures, behaviors, technologies and environment in health care that consistently and sustainably lower risks, reduces the occurrence of avoidable harm, makes error less likely and reduces its impact when it does occur.

AIM:

To enlighten the participants on patient safety care

OBJECTIVES :

At the end of the conference, the participants will be able to:

- Understand the international patient safety goals
- Identify issues in patient safety
- Identify practical aspects in patient safety
- Understand importance of communication in patient safety

**Speakers for International E - conference of
Terna Nursing College in collaboration with
National Health Care Academy, Singapore**
